November 16, 2017

- [1] R.J. Rodríguez and J. Campos. On throughput approximation of resource-allocation systems by bottleneck regrowing. *IEEE Transactions on Control Systems Technology*,  $?(?):?-?$ , ? 2018. To appear.
- [2] S. Pérez, J. Campos, H. Facchini, and A. Dantiacq. Experimental study of unicast and multicast video traffic using WAN test bed. In *Proceedings of the 2016 IEEE Biennial Congress of Argentina (ARGENCON'16)*, pages 1–6, Buenos Aires, Argentina, June 2016. IEEE Computer Society.
- [3] S. Pérez, H. Facchini, J. Campos, C. Taffernaberry, F. Hidalgo, and S. Méndez. Behavior of codecs for multicast video traffic using WAN test bed. In *Proceedings of the 2015 Chilean Conference on Electrical, Electronics Engineering, Information and Communication Technologies (CHILECON'15)*, pages 269–274, Santiago, Chile, October 2015. IEEE Computer Society.
- [4] J. Campos and B. Haverkort, editors. *Quantitative Evaluation of Systems*, volume 9259 of *Lecture Notes in Computer Science*. Springer, 2015. Proceedings of the 12th International Conference on Quantitative Evaluation of Systems (QEST 2015), Madrid, Spain, September 1-3, 2015.
- [5] S. Pérez, H. Facchini, A. Dantiacq, G. Cangemi, and J. Campos. Analysis of impact in the Wi-Fi QoS of the EDCA parameters. *Journal of Computer Science & Technology*, 15(1):8–14, April 2015.
- [6] S. Pérez, H. Facchini, A. Dantiacq, G. Cangemi, and J. Campos. An evaluation of QoS for intensive video traffic over 802.11e WLANs. In *Proceedings of the 25th International Conference on Electronics, Communications and Computers (CONIELECOMP'15)*, pages 8–15, Puebla, Mexico, February 2015. IEEE Computer Society.
- [7] J. Campos, C. Seatzu, and X. Xie, editors. *Formal Methods in Manufacturing*. CRC Press, 2014.
- [8] S. Pérez, J. Campos, H. Facchini, and L. Bisaro. Tuning mechanism for IEEE 802.11e EDCA optimization. *IEEE Latin America Transactions*, 11(4):1134–1142, June 2013.
- [9] S. Bernardi and J. Campos. A min-max problem for the computation of the cycle time lower bound in interval-based Time Petri Nets. *IEEE Transactions on Systems, Man, and Cybernetics: Systems*, 43(5):1167–1181, September 2013.
- [10] S. Bernardi and J. Campos. A min-max problem for the computation of the cycle time lower bound in interval-based Time Petri Nets. In *Actas de las XXI Jornadas de Concurrencia y Sistemas Distribuidos*, San Sebastián, Spain, June 2013. Universidad del País Vasco. See the paper [8].

- [11] S. Pérez, H. Facchini, G. Mercado, L. Bisaro, and J. Campos. Throughput quantitative analysis of EDCA 802.11e in different scenarios. *Journal of Computer Science & Technology*, 13(1):16–23, April 2013.
- [12] S. Pérez, H. Facchini, G. Mercado, L. Bisaro, and J. Campos. EDCA 802.11e performance under different scenarios. quantitative analysis. In *Proceedings of the 27th International Conference on Advanced Information Networking and Applications (AINA'13)*, pages 802–807, Barcelona, Spain, March 2013. IEEE Computer Society.
- [13] S. Bernardi, J. Campos, and J. Merseguer. Timing-failure risk assessment of UML design using Time Petri Net bound techniques. *IEEE Transactions on Industrial Informatics*, 7(1):90–104, February 2011.
- [14] J. Campos. Guest editorial: Special Section on Formal Methods in Manufacturing. *IEEE Transactions on Industrial Informatics*, 6(2):125–126, May 2010.
- [15] Antoni Grau, Javier Campos, and Gabriel Oliver, editors. *Proceedings of the 14th IEEE International Conference on Emerging Technologies and Factory Automation*. IEEE Industrial Electronics Society, Palma de Mallorca, Spain, September 2009.
- [16] S. Bernardi and J. Campos. Computation of performance bounds for real-time systems using time Petri nets. *IEEE Transactions on Industrial Informatics*, 5(2):168–180, May 2009.
- [17] C.J. Pérez-Jiménez, J. Campos, and M. Silva. Approximate throughput computation of stochastic weighted T-systems. *IEEE Transactions on Systems, Man, and Cybernetics. Part A: Systems and Humans*, 37(3):431–444, May 2007.
- [18] J. Campos and J. Merseguer. On the integration of UML and Petri nets in software development. *Lecture Notes in Computer Science*, 4024:19–36, 2006. Invited paper.
- [19] S. Bernardi, J. Campos, S. Donatelli, and J. Merseguer. GSPN compositional semantics for UML statecharts and sequence diagrams. Submitted for publication, 2005.
- [20] C.J. Pérez-Jiménez, J. Campos, and M. Silva. Approximate throughput computation of deterministic systems of sequential processes: Application to manufacturing systems. Submitted for publication, 2005.
- [21] J. Merseguer and J. Campos. Software performance modelling using UML and Petri nets. *Lecture Notes in Computer Science*, 2965:265–289, 2004. Invited paper.
- [22] S. Bernardi and J. Campos. On performance bounds for interval time Petri nets. In *Proceedings of the 1st International Conference on Quantitative Evaluation of Systems (QEST'04)*, pages 50–59, Enschede, The Netherlands, September 2004. IEEE Computer Society.
- [23] C. González-Buesa and J. Campos. Solving the mobile robot localization problem using string matching algorithms. In *Proceedings of the 2004 IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS'04)*, pages 2475–2480, Sendai, Japan, September 2004.
- [24] J.P. López-Grao, J. Merseguer, and J. Campos. From UML activity diagrams to stochastic Petri nets: Application to software performance engineering. In *Proceedings of the Fourth International Workshop on Software and Performance (WOSP'04)*, pages 25–36, Redwood City, California, USA, January 2004. ACM. Also in ACM SIGSOFT Software Engineering Notes, Vol. 29, no. 1, January 2004.

- [25] J. Merseguer, J. Campos, and E. Mena. Analysing internet software retrieval systems: Modelling and performance comparison. *Wireless Networks: The Journal of Mobile Communication, Computation and Information*, 9(3):223–238, May 2003.
- [26] J. Merseguer and J. Campos. Exploring roles for the UML diagrams in software performance engineering. In *Proceedings of the 2003 International Conference on Software Engineering Research and Practice (SERP'03)*, pages 43–47, Las Vegas, Nevada, USA, June 2003. CSREA Press.
- [27] J. Merseguer, J. Campos, and E. Mena. A pattern-based approach to model software performance using UML and Petri nets: Application to agent-based systems. In *Proceedings of the 7th World Multiconference on Systemics, Cybernetics and Informatics*, volume IX, pages 307–313, Orlando, Florida, USA, July 2003. IIIS Press.
- [28] A. González-Uzábal, C. Galé, and J. Campos. Desarrollo de una herramienta de optimización binivel utilizando CPLEX y MATLAB y generación de problemas de prueba. In *Actas del 27 Congreso Nacional de Estadística e Investigación Operativa*, pages 2931–2944, Lleida, Spain, April 2003. Sociedad de Estadística e Investigación Operativa de España y Departament de Matemàtica de la Universitat de Lleida, Edicions de la Universitat de Lleida. In Spanish.
- [29] J.P. López-Grao, J. Merseguer, and J. Campos. Performance engineering based on UML and SPNs: A software performance tool. In *Proceedings of the Seventeenth International Symposium on Computer and Information Sciences*, pages 405–409, Orlando, Florida, USA, October 2002. University of Central Florida, CRC Press.
- [30] J. Merseguer, S. Bernardi, J. Campos, and S. Donatelli. A compositional semantics for UML state machines aimed at performance evaluation. In M. Silva, A. Giua, and J.M. Colom, editors, *Proceedings of the 6th International Workshop on Discrete Event Systems*, pages 295–302, Zaragoza, Spain, October 2002. IEEE Computer Society Press.
- [31] J.P. López-Grao, J. Merseguer, and J. Campos. On the use of formal models in software performance evaluation. In *Actas de las X Jornadas de Concurrencia*, pages 367–387, Jaca, Spain, June 2002. Universidad de Zaragoza.
- [32] J. Campos, J. Ezpeleta, J. Júlvez, J. Merseguer, C.J. Pérez-Jiménez, and F. Tricas, editors. *Actas de las X Jornadas de Concurrencia*. Ed. Kronos. ISBN 84-88502-98-2, Zaragoza, June 2002.
- [33] J. Campos, J. Casanovas, J.M. Colom, G. Martín, J. Martínez, A. Pont, R. Puigjaner, A. Robles, and M.R. Sancho. Informe sobre la adaptación de los estudios de TIC a la Declaración de Bolonia. In Spanish, 2002.
- [34] J. Merseguer, J. Campos, and E. Mena. A performance engineering case study: Software retrieval system. *Lecture Notes in Computer Science*, 2047:317–332, 2001.
- [35] J. Merseguer, J. Campos, and E. Mena. Web-based versus mobile agent-based software retrieval systems: Performance comparison. In *Actas de las IX Jornadas de Concurrencia*, pages 299–312, Sitges, Spain, June 2001. Universitat Ramon Llull.
- [36] J. Campos. Evaluación de prestaciones de sistemas concurrentes modelados con redes de Petri. In *Actas de la XI Escuela de Verano de Informática de la Universidad de Castilla-La Mancha*, pages 141–156, Universidad de Castilla-La Mancha, Albacete, Spain, July 2001. Departamento de Informática. In Spanish.

- [37] J. Merseguer, J. Campos, and E. Mena. Performance analysis of internet based software retrieval systems using Petri nets. In M. Meo, T. Dahlberg, and L. Donatiello, editors, *Proceedings of the 4th ACM International Workshop on Modeling, Analysis and Simulation of Wireless and Mobile Systems, within the 7th International Conference on Mobile Computing and Networking*, pages 47–56, Rome, Italy, July 2001. ACM.
- [38] J. Merseguer, J. Campos, and E. Mena. A pattern-based approach to model software performance. In *Proceedings of the Second International Workshop on Software and Performance*, pages 137–142, Ottawa, Canada, September 2000. ACM.
