Appearance-based place recognition for topological localization - all 14 versions

Data association in stochastic mapping using the joint compatibility test - all 12 versions

Multisensor on-the-fly localization: Precision and reliability for applications - all 13 versions

Localization and map building using laser range sensors in outdoor applications - all 11 versions

Improving robustness and precision in mobile robot localization by using laser range finding and ... - all 3 versions

Deriving and matching image fingerprint sequences for mobile robot localization - all 12 versions

A hybrid approach for robust and precise mobile robot navigation with compact environment modeling - all 14 versions

Multisensor on-the-fly localization using laser and vision - all 5 versions
